

react-three-fiber

- (1). Error in test renderer when calling update
<https://github.com/pmndrs/react-three-fiber/issues/2200>
- (2). Small error in Documentation
<https://github.com/pmndrs/react-three-fiber/issues/2172>
- (3). react-three-fibers depends on react@18 and a version of zustand that disallows react@18
<https://github.com/pmndrs/react-three-fiber/issues/2171>
- (4). Canvas resize delayed after container resize.
<https://github.com/pmndrs/react-three-fiber/issues/2149>
- (5). Error in documentation for negative indices ?
<https://github.com/pmndrs/react-three-fiber/issues/2139>
- (6). Proposal: Bring "color" or "background" into Canvas Props because I'm lazy
<https://github.com/pmndrs/react-three-fiber/issues/2129>
- (7). Consider defaulting to `renderer.physicallyCorrectLights = true`
<https://github.com/pmndrs/react-three-fiber/issues/2127>
- (8). Event system shouldn't assume a single, builtin Raycaster
<https://github.com/pmndrs/react-three-fiber/issues/2117>
- (9). RTTR `waitFor` tests fail when async
<https://github.com/pmndrs/react-three-fiber/issues/2107>
- (10). does not work with react native [`npx react-native init`]
<https://github.com/pmndrs/react-three-fiber/issues/2077>
